

ECLIPSE 2 GROUP COMPACT

FUNCTIONALITY

Customisable Panels

Side panels can be customised to suit any need or environment.

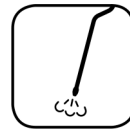

Automatic Cleaning

Auto cleaning means the group head and shower always stay clean and ready for the next brew.

Soft Preinfusion Heads

Allow coffee to develop its flavour naturally with preinfusion and complete saturation in every dose.

Straight anti-suction Steam Wands

Straight-flow wands ensure minimal steam restriction and anti-suction valves.

Group Flushing

Keep each group clean and ready to go between brews with just the push of a button.
