The Synchro 2 Group High Group Espresso Model

The Synchro 2 Group espresso machine offers a high throughput in a busy operation with user-friendly settings. Available in 4 colours, black, red, orange and white. With a copper inner boiler of an impressive 14 litres and 3 filter holders, this Synchro not only looks fantastic on any counter but also does the job it's designed for exceedingly well!

- Two stainless steel steam arms and hot water tap
- Manual group overrides
- Large 14 litre boiler
- Programmable pre infusions
- Electronic display
- High group / Take-away
- Dimensions H=557 W=802 D=593
- Power consumption = 3.8kw
- Weight = 70Kg

Optional Extras

All optional extras are available upon request.

These will need to be placed on a special order and may take some time to arrive in stock.

- Auto temperature milk steamer
- Over machine electric cup warmer
- Illuminated backlit panel
- TCI Independent Temperature Control. The Electronic temperature control device controls the water temperature of each separate boiler, for each group. Each group has its own 'personal' boiler allowing different water temperatures to be dispensed out of each group head. It also has a separate steam boiler
- Personalisation available
